

Assignment 1

CSE 406 – Software Engineering

Due:

- Paper selection by Sept. 29, 23:59
- Presentation date: Oct. 9/11 (in class)

Each group will prepare for their slides and submit them for in-class presentation. Study and choose (carefully) ONE paper only from the following links. Follow the instruction carefully.

- 2017 http://esec-fse17.uni-paderborn.de/program_research_track.php
- 2017 http://esec-fse17.uni-paderborn.de/program_industry_track.php

Paper selection by Sept. 29 (we will discuss more in class)

Your slides should include the following components:

- Background
- Goal
- Contributions

Print one copy of your slides for in-class presentation.

You will be asked to present the paper of your choice in class. Here are your subtasks:

1. Write a message on the HY-IN web board (click on ‘student bar’) reporting your group members and paper. It will be assigned as first-come first-serve basis. Whoever picks the paper first, it’s theirs. You must choose another paper to avoid conflict. Due: Sept. 29.

Sample message format:

Title of message: title of paper

Group members: your names

Paper: “authors of paper”, “title of paper”, “conference”

2. Prepare your slides. Please refer to the following sample presentation slide. Each will be given 10+ minutes to present. Due (Presentation): Oct. 9/11, in class.

- Make your slide informative
- 8 slides maximum
- Print your slides and submit in class
